

$P(\gamma)$ Density For γ Events vs Energy above Cherenkov Threshold (MeV)

$P(e^-)$ Density For γ Events vs Energy above Cherenkov Threshold (MeV)

$P(\mu^-)$ Density For γ Events vs Energy above Cherenkov Threshold (MeV)

$P(\gamma) + P(e^-)$ Density For γ Events vs Energy above Cherenkov Threshold (MeV)

$P(\gamma)$ Density For e^- Events vs Energy above Cherenkov Threshold (MeV)

$P(e^-)$ Density For e^- Events vs Energy above Cherenkov Threshold (MeV)

$P(\mu^-)$ Density For e^- Events vs Energy above Cherenkov Threshold (MeV)

$P(\gamma) + P(e^-)$ Density For e^- Events vs Energy above Cherenkov Threshold (MeV)

$P(\gamma)$ Density For μ^- Events vs Energy above Cherenkov Threshold (MeV)

$P(e^-)$ Density For μ^- Events vs Energy above Cherenkov Threshold (MeV)

$P(\mu^-)$ Density For μ^- Events vs Energy above Cherenkov Threshold (MeV)

$P(\gamma) + P(e^-)$ Density For μ^- Events vs Energy above Cherenkov Threshold (MeV)
